MEMORANDUM FOR THE DIRECTOR

SUBJECT: Leave Request

If you have no objections, I am faced with a rather urgent need to spend Friday, 15 October, working at home. After weeks of not showing, the bulldozer operator suddenly appeared this week to do the final finish grading around our house site. He completes his work today and I need to get grass/ground cover seed down plus straw to hold it before the next rain -- else our present expanse of smooth but unprotected red clay is likely to erode. Things are in train here and if you concur, I would like to leave the office in STAT  hands on Friday while I take care of unfamiliar but essential agricultural details.

George A. Carver, Jr.  
Special Assistant for Vietnamese Affairs
